HISTORY

In December 1974, Arran Pipeline was founded in Warrington, Cheshire. The company supplied carbon steel pipe to the oil and gas industry, and quickly built a reputation for product knowledge, competitive pricing and excellence in customer service.

As the company grew, it was decided to build its own warehouses and offices on its site in Warrington to accommodate expansion growth. Arran now has over 38,000 sq. ft. office and warehouse space.

In 1989 Arran opened a branch in South Wales, primarily to service the Port Talbot steelworks. As this branch became successful, it moved from Swansea to Port Talbot to be closer to its customers. Customers can stop in and collect flanges, fittings and valves.

For more than 40 years, Arran Pipeline Supplies has built its reputation on supplying carbon steel pipe and other pipeline products to companies across various industries at the most competitive prices. We currently have more than 38,000 square feet in warehouse and office space between our Warrington and Port Talbot locations, which ensures our ability to deliver products fast—to where and when you need them. As reliable valve specialists, Arran Pipeline Supplies can also arrange cost-effective packages of valves and fittings to meet your specific needs.

PRODUCTS

CARBON & STAINLESS STEEL PIPE

Arran Pipeline Supplies can supply carbon steel pipe to any custom specifications. Most carbon steel pipe comes in random lengths of approximately 6 or 12 metre lengths;

SEAMLESS - We stock a wide range of nominal bore from 1/4" - 24" of seamless ASTM A106 Grade B & A333 Gr 6 in various wall thicknesses and can cut to specific lengths if required.

WELDED - We stock ERW, LSAW, SSAW pipes from 4" - 64" in a variety of steel grades with multiple wall thicknesses. Our main stock range is certified to API5L Gr B. We also stock EN10255 (BS1387) pipe in Red, Galv & Self Colour for the plumbing and fire protection market.

STAINLESS STEEL - We stock stainless steel pipe to ASTM A312, grades 304L, 316L & can also offer Super Duplex in a number of sizes and wall thicknesses

GALVANISED HAND RAIL— We stock galvanised medium plain end pipe for hand rail and other use. We also stock 3/4", 1", 1 1/4", 1 1/2" and 2" nominal bore.

CARBON & STAINLESS STEEL FLANGES

Arran Pipeline Supplies stocks a wide range of flanges to suit all customers. Whether you need a Slip-On, Blind, Weld Neck, Screwed, Bossed or Lap Joint flange we are here to help. Our off the shelf stock covers sizes 1/4" up to 64"Nb:

BS EN1092-1 - PN6, PN10, PN16, PN25, PN40 Types 01, 02, 05, 11, 12 & 13

BS10 - Table D, E & F in S/O, Blind & Screwed

ANSI B16.5 - ASA 150lb, 300lb, 600lb, 900lb & 1500lb in S/O, Blind, Weld Neck (Sch40, Sch80 & More) & Screwed NPT and BSPT

Our range covers multiple material grades from S235JR, ASTM A105, ASTM A350 LF2, 304L & 316L with Duplex and other specialty metals available on request.

MACHINING - We also have the ability to machine flanges/raw material for any special requests you may have whether that may be in-house or through our many contacts across Europe.

CARBON & STAINLESS STEEL FITTINGS

Along with our range of flanges we also stock fittings to suit our ranges of pipe in several materials, A234 WPB, P265GH, A420 WPL6, ASTM A105, 304L & 306L forged and butt weld in various wall thicknesses from 1/4" up to 48"Nb:

B16.9 - 90 Degree elbows (short & long radius), 45 Degree elbows, Concentric Reducers, Eccentric Reducers, Tees (equal & reducing), Caps

BS1965 - 90 Degree elbows (short & long radius, medium & heavy wt), 45 Degree elbows, Concentric Reducers, Eccentric Reducers, Tees (equal & reducing), Caps

B16.11 - 3000lb & 6000lb forged fittings. 90 & 45 Degree elbows, Tees, Couplings, Unions, Caps, Nipples, Reducing bushes/inserts, Plugs & Crosses. Either NPT, BSPT or Socket Weld.

GASKETS - We have gaskets to suit all flanges both full face & IBC in several different materials from NAF (non-asbestos fibre), EPDM, Spiral Wound & more.

EN10242 - Galvanised & Black malleable iron pipe fittings. 90 & 45 Degree elbows, Tees, Sockets, Unions, Caps, Hex Nipples, Reducing bushes, Plugs & Crosses.

EN10241 - Mild steel fittings (BS1387). Barrel Nipples & Sockets.

VALVES

We stock an extensive range of valves specifically geared for the heavy industrial process & petrochemical industry. Our stock range includes:

GATE VALVES

BUTTERFLY VALVES

CHECK VALVES

BALL VALVES

GLOBE VALVES

STEAM TRAPS

To complement the above we offer a full actuation/automation service on our entire range of valves.

SERVICES

CUTTING - Tube normally come in 6 or 12 metre random lengths which can vary between 5 - 10 metres depending on the nominal bore. Here at Arran Pipeline Supplies we can offer in-house saw cutting on all pipe up to and including 24" (610mm O/D), for pipe sizes over this we can also flame cut to your required lengths.

THREADING - We can thread pipes up to 6" diameter BSPT. Whether this is simply adding a BSPT thread to the ends of a 6Mtr length of pipe or cutting & threading several smaller lengths to suit your needs.

VICTAULIC GROOVING - We have in-house grooving facilities which can roll groove up to 24" pipe & for anyone who has thicker wall pipe which requires grooving we can also offer cut-grooved services.

SHOTBLAST & PAINTING - We are also able to offer a full service of pipe supply shotblasted to SA2.5 if required along with painting services to suit each customer.
